Profile

Skilled Full Stack Web Developer with strong expertise in JavaScript, React, Node.js, Express, and MongoDB
 Successfully developed full stack web applications using the MERN stack, showcasing a deep understanding of modern web development practices. Adept at collaborating with cross-functional teams and passionate about contributing to innovative projects. Seeking a challenging position to further enhance my skills and deepen my expertise within the dynamic landscape of web development. Committed to continuous learning and eager to make a positive impact in any industry I engage with, particularly within a collaborative and innovative startup environment.

Goals & Accomplishments

Past Accomplishments

Received a certificate of competence in Fullstack Web development

Future Goals

Received a certificate of competence in Fullstack Web development My career goal is to further my technical skills and knowledge by working in a challenging environment such as a startup, particularly as a junior or entry level frontend web developer , where I can leverage my expertise in Mern and other backend technologies like Python and Django REST Framework (DRF).

Experience

September - Date

Frontend developer & Lead Intern, Mentorled, Remote (UK-based clients)
 Leadership: Lead a team of frontend interns in building real-life projects for UK-based clients, ensuring successful project delivery within deadlines.
 Frontend Development: Design and structure user interfaces, focusing on responsive and user-friendly layouts using modern frameworks like React.js.
 Code Quality: Ensure adherence to best practices, implemented refactoring strategies to reduce redundancy, and optimize code for performance and maintainability.
 Problem Solving: Diagnose and resolve bugs, collaborate with the team to address technical challenges, and ensure smooth project deployment.
 Collaboration: Coordinate with team members to translate client requirements into functional, scalable, and visually appealing applications.

April 15 - September

Frontend Intern, Univelcity Lagos
Upon graduating from the Front and Backend web development program at the tech training institute and receiving my certificate, I was chosen for an advanced internship certification. Presently, I am fully engaged in this advanced internship program, where I am tasked with applying my acquired skills to real-world projects, collaborating with senior developers, and further honing my expertise in web development..

Jan 2023 - Dec 2023
Application specialist, Avalonic Education
As an Application Specialist at Avalonic Education, I was responsible for managing and
supporting various software applications within the educational environment.
